DETAILED ACTION

In response to the Amendment After Final filed March 6, 2006

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claims 1, 8 – 16 and 18 are allowable over the Prior Art of Record because it fails to teach or suggest a multimeter with non-contact temperature measurement capability comprising a non-contact optically-based temperature sensing device comprising an infrared sensor built in to the housing, having an output related to sensed temperature of a surface, and without the capability of adjusting for emissivity of the surface being sensed, the temperature sensing device defining a sense axis that is adjustable relative to the housing and further comprising a lens proximate the infrared sensor and mounted in a mount that is coupled to and projects outwardly from the housing for focusing entering radiation and protecting the infrared sensor wherein the mount is movable by the user relative to the housings to allow the user to aim the sense axis in combination with the remaining limitations of the claims.

- b. Claims 19, 22 – 26 and 28 are allowable over the Prior Art of Record because it fails to teach or suggest a digital multimeter with non-contact temperature measurement capability comprising a non-contact infrared temperature sensing device contained within the housing, having an output related to sensed temperature of a surface, and without the capability of adjusting for emissivity of the surface being sensed, the temperature sensing device defining a sense axis that is adjustable relative to the housing and further comprising at least a lens that is mounted in a mount that projects outwardly from the housing, and is coupled to and movable by the user relative to the housing, to allow the user to aim the temperature sensing device sense axis in combination with the remaining limitations of the claims.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
